

In the event of a localised or school lockdown the following procedure has been put into place by The Emscote School to continue to support your child's learning and welfare.

1. Students will remain at home, or be transported home from the school by the normal method.

2. Students will be provided with login details to their online lessons, a timetable, a folder with PSHE work and contact details for the principal and vice principal.

3. On a daily basis you will receive communication from a staff member at The Emscote School as a welfare call, simply checking that you are all okay.

4. We will maintain contact with you throughout the lockdown period to ensure that you have the latest information about return dates.

5. When the lockdown is over you child will return to school as normal. Social distancing and high levels of hygiene remain throughout.
